

F-2013-00027 - Donor information broken down by year of registration

20 February 2013

Summary of request

The Authority was asked for data since 2004 regarding newly registered donors for each year.

HFEA response

Please find the information requested in the table below. As a number of form types were in use over the data range requested and not all recorded marital status, included is a table that gives a breakdown of what was received in each year.

As the definition of 'single' can be slightly ambiguous three tables have been included, each with a slightly different definition of 'single'. Each definition is included in the title of the table.

As the numbers become fewer than five we have replaced them '<5'. This is to ensure that we do not release what might be used to identify people to whom we owe a duty of care.

- [Table of sperm donor count by year with a breakdown by age, domestic status and previous children](#) (xls 37KB)
