

F-2013-00247 - Age specific birth rates for women using embryos frozen when aged 18-34

14 October 2013

Summary of request

The Authority was asked for age specific birth rates for women using their own frozen embryos when the freeze took place when aged 18-34.

HFEA response

Please find these data attached in different formats. Please note that both documents contain identical data.

Some of the rates are presented as '(*.*)'. This is done when the rate is calculated from too few treatment cycles to be significant.
