- [Table showing ectopic pregnancy data for centres 0299, 0006, 0070 and 0157 between 2009 and 2011](#) (xls 29KB)

The table includes the total number of treatments and live birth events, as well as incidences of ectopic pregnancies, for each of the four centres. Where the numbers fall below five the actual figure has been replaced with '<5' to ensure the information released cannot be used, in conjunction with other available information, to help identify patients to whom the HFEA owes a duty of care.
