

F-2012-00148 - The success rate for blastocyst transfer in 2011

14 June 2012

Summary of request

The Authority was asked for information about the success rate for IVF blastocyst transfer using fresh eggs during 2011.

HFEA response

We do not yet have verified outcome data for the full year of 2011, however, we do have this for 2010 and have a published report covering 2010 data on our website at:

<http://www.hfea.gov.uk/6771.html> . Section 3 covers success rates for blastocyst transfer using fresh eggs. Once we have verified outcome data for the full year of 2011 we will be updating this report.
