

F-2016-00083- birth from frozen embryos

27 April 2016

Summary of request

The HFEA was asked for data regarding the amount of live births from frozen embryos which were created from frozen eggs.

HFEA response

I can confirm that, according to the information held by the Authority, there has been 9 birth events that have resulted from the transfer of thawed embryos that were created from thawed eggs.

Please note that the HFEA can only provide data up to 30/06/2014 for outcomes, as this is the latest date for which we have verified information.

This data was extracted from the HFEA's data warehouse containing Register data as at 20 April 2016. Please note that the information in our database may be subject to change as licensed centres notify us of information that updates or corrects information they have previously supplied.
