

F-2016-00267- IUI treatment numbers/success rates

1 November 2016

Summary of request

The Authority was asked for information regarding IUI treatments and success rates.

HFEA response

Please find attached a spreadsheet containing the requested data. Please note that success rates for each of the clinic you listed in your request can be found on the HFEA's Choose a fertility Clinic website (<http://guide.hfea.gov.uk/guide/AllClinics.aspx?x=A>) with the exception of Countess of Chester Hospital which has not reported any treatment data.

Please note that the HFEA can only provide data for partner IUI treatments up to 31/12/2015 and data for donor insemination treatments up to 30/06/2015 as these are the latest dates for which we have verified information.

This data was extracted from the HFEA's data warehouse containing Register data as at 20/10/2016. Please note that the information in our database may be subject to change as licensed centres notify us of information that updates or corrects information they have previously supplied.

As you will see I have replaced all low numbers with a '<5' because there is a significant possibility that this information, when combined with other information to which you may reasonably be expected to have access, could lead to the identification of a person to whom the HFEA owes a duty of confidentiality. To disclose this information in these circumstances may therefore result in a breach of the confidentiality provisions of section 33A of the Human Fertilisation and Embryology Act 1990 (as amended), and the information is therefore exempt from disclosure under section 44 of the Freedom of Information Act 2000.
